

Python Programming Example: Siglent SDG1025 with python (bonus: add web access using any Single Board Computer)
August 13, 2019

A SIGLENT customer (@dimtass) built a slick tool to help automate control of his SIGLENT SDG1025 using Python and Flask.

In this project, you can learn how to use the USBTMC control of a SIGLENT instrument to expand the device remote control options.

[Control Siglent SDG1025 with python \(bonus: add web access using any SBC\)](#)
