

- If the firmware version in your SDG800 is before 1.01.01.08 (not included), please install “**SDG800_transition.ADS**” first, and then install “**SDG800 V100R008B01D01P08.ADS**”, finally install **the latest ADS file**.
- If the firmware version in your SDG800 is after 1.01.01.08 (included), please install the latest ADS file directly.

The following Update Instructions will guide you to install an ADS file step by step:

Update Instructions

WARNING: DO NOT shut off the instrument until the update is completed.

1. Insert the USB disk with the ADS file to the USB host port on the front panel of the generator
2. Press the **Utility** button to enter the Utility menu
3. Press the **1/3** softkey to enter the third page of the Utility menu
4. Press the **Update** softkey
5. Press the **Brower** softkey to select ‘Folder’, then select the ‘USB Device (A:)’ using the direction key on the front panel
6. Press the **Brower** softkey to select ‘File’, then select the ADS file using the direction key on the front panel
7. Press the **Recall** softkey to fulfill the upgrade
8. After the upgrade is accomplished, restart the generator (If the ADS file is for 1.01.01.12R1, the generator will restart automatically)

WARNING: DO NOT shut off the instrument until the update is completed.
