

SIGLENT analyzers and RF generators added to TILE! compliance software

February 24, 2022

Cleveland, Ohio February 24, 2022: SIGLENT Technologies is happy to announce that our spectrum analyzers and RF signal sources have been integrated into the popular TILE! compliance software platform from ETS Lindgren.

This is great news for compliance labs that want to use SIGLENT products for pre-compliance tests. This new addition lets them plug-and-play with their existing TILE! Installation.
