SDS2104X Plus
Super Phosphor Oscilloscope

This promotion is only available in Europe Area.

Promotion Valid from 15/4/2025 thru 25/8/2025

The **SIGLENT SDS2000X Plus** is our newest solution for high fidelity design and debug applications in semiconductor and power electronics. It adopts a high performance ADC and an excellent front-end design that combines low noise and improved accuracy with updated visualization and analysis tools.

For a limited time, SIGLENT will be offering many of these visualization and analysis tools as free upgrades in a special launch promotion:

For **SDS2104X Plus oscilloscope purchased** from **4/15/2025 to 8/25/2025**, the following options will be enabled permanently and free of charge. This includes a 200MHz bandwidth upgrade plus a free FG license. **Save up to €1,204.**

Important Information

*This is a limited time promotion for valuable SIGLENT customers, the promotion valid **4/15/2025 through 8/25/2025** with purchase of a **new SDS2104X Plus oscilloscope** only.

*Promoted **only on SDS2104X Plus model.**

*No other discounts or promotions apply.

*This promotion is **only available in Europe Area.**
