### SIGLENT Technologies Exhibits at ECEDHA 2018

March 26, 2018

The 2018 ECEDHA Annual Conference and ECExpo took place March 16-20 at the Hyatt Regency in beautiful Monterey, California. Siglent Technologies Steve Barfield (General Manager, US Branch)and Jason Chonko(ApplicationsMarketing Manager, US Branch)brought along some popular SIGLENT equipment, including the SSA3000X series spectrum analyzer, SDS10004X-E series digital oscilloscope, SDG1000X series pulse/arbitrary waveform generator and SDM3045X digital multi-meter.

The ECEDHA show provided a great opportunity to meet with the department heads of many of North America's top Engineering schools and discuss the latest in test technology and education systems. We had a great time and will see you next time!
