Unlock Full SigVSA Power with SDS7000A Series Oscilloscopes

June 22, 2026

Purchase the RFA option for the SDS7000A Series Digital Storage Oscilloscope and receive the complete set of embedded SigVSA features at no additional cost. The embedded SigVSA runs directly on the SDS7000A oscilloscope, delivering seamless, high-performance vector signal analysis of DDC output data without the need for external equipment.
