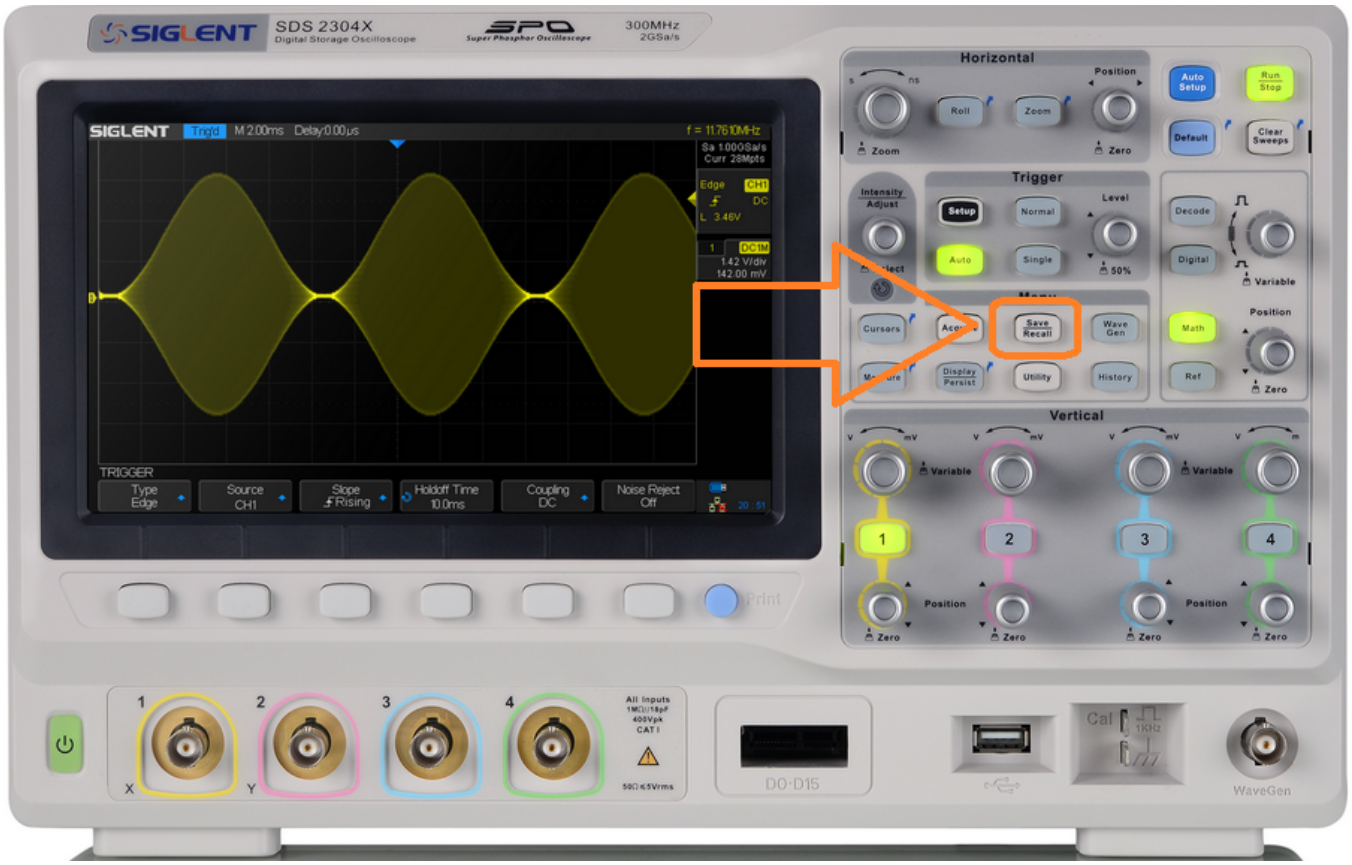
SDS1000X/X+/2000X Security Erase

October 25, 2017

The Security Erase process deletes all user data and clears available volatile and non-volatile memory.

To perform a security erase process, follow these steps:

1. Press Save/Recall



2. Press Security Erase

3. Press Confirm to begin the process

After the process is complete, you can reconfigure the scope for measurements.
